Chicago, Illinois 60604

Dear Ms. Betka:

This is to advise you that Brady Boyce is the Michigan Department of Natural Resource's Project Manager for the North Bronson Industrial Area Site. Bill Herceg was scheduled to assume project management upon receipt of the cooperative agreement, however, that is no longer the case. Mr. Boyce, who has managed the project for the State over the past year, will retain the role of Project Manager.

Please revise your records accordingly.

Sincerely,

Ronald Willson, Chief
Site Management Unit
Remedial Action Section
Environmental Response Division
